Professional Summary_____

- Experienced full-stack developer proficient in front-end and back-end technologies. Skilled in creating robust, scalable web applications. Strong problem-solving and collaboration abilities. Committed to delivering high-quality, user-centric solutions through efficient development practices.

Skills _____

- JavaScript, MYSQL, React, React Native, NextJs, Redux, Node, NoSQL, TypeScript, Express, Webpack, Docker,
- Kubernetes, OOP, PHP, Jest, Git/GitHub, GCP, AWS, HTML, CSS/SASS, JQuery, Microservices,
- Backend, Frontend, Full-Stack, socketIo, MUI,

Experience_____

- **Full Stack Developer | MeaningfulWork | Canada | Oct 2021 - Oct 2023**
  Contributed to the development of various features using latest technologies such as NodeJs ReactJs. Worked with a team of developers to deliver high-quality web solutions within strict timelines. Collaborated with designers and project managers to ensure seamless integration of front-end and back-end functionalities. Implemented Agile workflow processes and best software development practices to improve team productivity and project outcomes.

- **Full Stack Developer | Inshirah Collective | Turkey | Jan 2020 - Jan 2021**
  contributed to a range of exciting projects. My tech stack included HTML, CSS/SASS, JavaScript, ReactJs, Redux, NodeJs, MongoDB, Docker and Express. One of my notable achievements was developing an interactive website that incorporated APIs to serve the website's content and a robust Content Management System (CMS). Through my role, I gained valuable skills in creating dynamic and user-friendly web applications while working within a collaborative team environment.

- **Full Stack Developer | Yusra Community Center | Turkey | Sep 2018 - Jan 2020**
  Using HTML, CSS/SASS, JavaScript, jQuery, PHP, and MySQL. I contributed to multiple projects, including an interactive website, a School Management System, a Content Management System, a Volunteer Management System, and a Sales Management System. Through these projects, I gained extensive hands-on experience in front-end development, back-end implementation, and database management. My proficiency in utilizing these technologies allowed me to deliver efficient and user-friendly solutions, while working collaboratively with teams to achieve project goals

Education_____

- **Self-Study in Computer Science**
  Undertook extensive online courses, tutorials, and practical projects to develop a solid foundation in algorithms, data structures, and programming languages. Deep understanding of fundamental concepts and ability to adapt to emerging technologies, ensuring up-to-date skills in a rapidly evolving field.

Mentorship_____

Dedicated mentor, providing guidance and support to individuals for professional development. Empowering others to overcome challenges, acquire new skills, and achieve their goals through personalized coaching and insightful feedback.

Volunteering_____

Managed Turkey-Syria earthquake relief, assisted displaced people, trained as Mental Health facilitator, served as translator.

Languages_____

English, Arabic and Turkish
